The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).</p>

Continuation of 11. does NOT place the application in condition for allowance because: Applicant argues that the limitaitons of claims 17 and 18 were not explained by the examiner. Please note that the limitaitons of these claims are present in claims 9-16 whose limitaitons and how they relate to the the art were explained in the rejeciton.

Farr teaches a floating caliper disc brake including a brake holder (2) firmly attached to the vehicle, the caliper axially displaceable, the disc brake further comprising a rigid locking element (5a, 13, 19) that connects the floating caliper with the brake holder, the rigid locking element preventing radial movement of the floating caliper. Please noe that Farr is used to teach the adjustability. Please note that all of these limitaitons are present in the rjeciton of claims 9-16. Please note that the term locking element is extremely broad, and can be a bolt or any connection which holds parts together.
